

PROJECT MANAGEMENT PLAYBOOK

GET STARTED WITH PROJECT MANAGEMENT

Create a project brief

INSTRUCTIONS: GETTING STARTED

Complete your assignment on the following slides

Set the share settings so **anyone with the link** can view the document

Submit the link to this deck in the Learning Management System

Tips for completing your assignment:

- Rename your copy and add your name to the file
Example: Playbook Assignment: Create a Project Brief-MRogers
- Read each slide carefully to ensure you complete the assignment successfully
- Review your playbook before submitting for accuracy, grammar and spelling
- Keep in mind the Guidelines for AI Use in the Course (located in the syllabus) when completing this assignment. You will indicate your AI use in the playbook on the last slide of this slide deck

INSTRUCTIONS: Introduction and background

You've just joined your first major initiative **as a project manager at Moodies**, a company that designs color-changing shoes based on your mood. With customer inquiries rapidly increasing, leadership has asked you to lead a project to **redesign the customer service website** and **introduce a chatbot** to improve response times and reduce support workload.

Your task is to create a project brief — a concise document that summarizes the project purpose, goals, scope, timeline, team, and risks. You'll use information from the CEO's email on **slide 4** to complete the sections on **slides 5–10** which, will serve as the completed project brief.

This project brief will:

- Help the team and stakeholders understand what the project aims to achieve and how success will be measured
- Serve as a reference document for the project kick-off

 **Tip:** The CEO's email may not include every detail — that's okay. Project managers often make reasonable assumptions to fill gaps, as long as they're clearly stated.

REVIEW: Email from the CEO

You've received an email from the CEO of Moodies announcing the **Customer Support Redesign Project**.

Use the details from this email to complete your project brief (**slides 5–10**).

 **Remember:** If something is unclear or missing, note it as an assumption or next step for clarification — that's part of real-world project planning.

Click [here](#) to review the email.

COMPLETE: Project brief executive summary

PROMPT/QUESTION	RESPONSE
Create an executive summary using the information found in the email. Guidance: • Summarize why the project is happening • Briefly describe 2–3 key project goals. • Describe the intended impact on customers and the support team. • Keep it to 3–5 sentences, written as a high-level overview for leadership.	The Moodies Customer Support Redesign project has been initiated to address the growing volume of customer inquiries resulting from the increasing popularity of Moodies shoes. The project will redesign the customer service website and implement a chatbot to provide faster responses to common customer questions. These improvements aim to reduce the workload on customer support representatives while improving response times and issue resolution. Ultimately, the project seeks to enhance the overall customer experience, increase customer satisfaction, and reduce customer inquiries across social media channels.

COMPLETE: Project goals and objectives

PROMPT/QUESTION	RESPONSE
Use the scenario provided to identify: ● One project goal (broad, long-term outcome) ● One project objective (specific, measurable result that supports the goal) Guidance: ● The goal answers <i>what</i> you want to achieve (big picture). ● The objective describes <i>how</i> success will be measured.	Goal: - Improve efficiency and effectiveness of moodies customer support by redesigning customer service website and introducing a chatbot Objective : - Achieving 20% increase in customer satisfaction.

COMPLETE: Project scope

PROMPT/QUESTION	RESPONSE
What is considered in scope in this scenario? List at least five items. (<i>Tasks, deliverables, or areas the team will focus on.</i>) Guidance: “In scope” = what the project <i>will do</i>.	1. Redesign Customer service website 2. Introduce a chatbot, for common customer queries 3. Identify the new website content 4. Implement new website content on customer service website 5. Conduct testing and quality assurance before release 6. Train customer support representatives on new system
What is considered out of scope in this scenario? List at least three items. (<i>Items not part of the project or handled by other teams.</i>) Guidance: “Out of scope” = what the project <i>will not do</i>.	Any work not included in the project scope will be considered out of scope and evaluated as a new request.

COMPLETE: Project milestones and timeline

PROMPT/QUESTION	RESPONSE
List 4-6 milestones would you include in your project brief? (<i>Think of major checkpoints or deliverables mentioned in the CEO's email.</i>)	1. Identifying and writing new content. 2. Designing the page for new content 3. Implementing content on the website. 4. Completing Testing and Quality Assurance of website and chatbot. 5. Training support representatives on new system.
What is the expected timeline for this project based on the CEO's email?	Approximately 6 months
Identify 1-2 details about the timeline that are still unknown or need clarification.	start date, end date and any milestone dates are not specified

COMPLETE: Project budget

PROMPT/QUESTION	RESPONSE
What is this project's starting budget? Guidance: <i>Even when information is incomplete, indicate what's known and what needs clarification.</i>	The project budget is pending approval. So project starting budget is not determined. Once finalized, it is unlikely to allow for significant changes.
What are the success criteria for this project?	1. A 20% increase in customer satisfaction. 2. A 40% reduction in support reps' time on inquiries. 3. An 80% reduction in social media inquiries. 4. Reduced issue resolution time from 4 to 2 days. 5. At least 40% decrease in total inquiries based on internal testing. 6. 70%+ positive customer feedback during focus group testing

COMPLETE: Project budget

Which roles are part of the project team in this scenario?

1. Head of Customer Service
2. Product Owner
3. Project Manager / Technical Project Manager
4. Engineer
5. Product Designer
6. Content Author
7. Quality Assurance Tester

COMPLETE: Constraints, assumptions, and risks

PROMPT/QUESTION	RESPONSE
List at least two constraints in this project? <i>(Constraints are limitations the team must plan around.)</i>	1. once budget is approved, it is finalised, changes not allowed. This limits the team flexibility to increase spending during project 2. Timeline is not fixed.The project must be completed in approximately six months.
List at least two assumptions in this project? <i>(Assumptions are things you believe to be true for now, but should be confirmed later.)</i>	1. Legal and regulatory teams have approved the content and no further legal review will delay the project. 2. At least three support reps will participate in testing and provide feedback.
Who is responsible for identifying and managing risks for this project?  Hint: One person manages the risk process, but risks are identified with help from the broader team.	Project Manager / Technical Project Manager is responsible for managing risks, with risks identified collaboratively by stakeholders and project team.

OPTIONAL: Polish your project brief using AI

PROMPT	INSTRUCTIONS
1. Go to chat.openai.com	Log in or create a free account.
2. Prompt it to create a polished, professional project brief	Copy/paste your responses from the previous slides into ChatGPT and use a prompt like: <i>“Review this draft project brief. What is unclear, missing, or potentially misaligned with the project goals, scope, stakeholders, timeline, or success criteria? Please suggest improvements, but do not invent details.”</i>
3. Review and revise	Check the output and decide which suggestions improve your brief. Keep what strengthens it, and revise or ignore anything that doesn’t fit your project
4. Share your revised brief	Copy/paste the final version into a shareable Google Doc with “Anyone with the link” selected as your sharing option.
5. Link	[Paste your shareable link here.]

COMPLETE: AI use in the playbook

Per the course AI guidelines you are required to indicate where and how AI tools were used in your assignments (e.g., idea generation, drafting, proofreading, etc.). Please complete the following:

QUESTION	ANSWER
Did you use AI when completing this assignment?	Yes
If yes, explain how you used AI tools to assist you in completing the assignment. Include where you used it.	I first completed the assignment independently using my own critical thinking and understanding of the project scenario. After drafting my responses, I used ChatGPT to review my work, identify any gaps and suggest improvements to the clarity, grammar, and organization of my answers.

INSTRUCTIONS: SUBMIT IT

Review each slide and make sure you have completed the entire assignment

Set share settings so **anyone with the link** can view the document

Access the correct assignment submission page in the Learning Management System

Copy/Paste the link to your assignment in the system by the due date

Confirm the assignment was accepted by the Learning Management System

How to set share settings:

- Click "Share" in the upper right corner
- Under "General Access", select "**anyone with the link**"
- Click "Copy" and then "Done"
- Paste the link in the correct assignment submission page in the LMS
